Choose one goal to SMARTen:

Specific
How can you make your goal more detailed and concrete?

Measurable
How will you know you’ve achieved the goal?
What metrics for success will you use?

Action-Oriented
What are three steps you can take toward your goal?

Realistic
Is this something you can reasonably achieve?
Is it too easy or too hard?

Time-Sensitive
What is your deadline? What are intermediate steps (milestones) you can set along the way?
